Graduate of the Faculty of Mechanics and Mathematics of Moscow State University. M.V. Lomonosov 1979, PhD in Physics and Mathematics (1989) in Differential Equations and Dynamical Systems, doctor tech. Sciences (2001).

Currently – Head of the Department of Higher Mathematics of the Moscow Automobile and Road University (MADI) and Professor of the Department of Mathematical Cybernetics and Information Technologies at MTUCI. Academician of the International Academy of Informatization. Specialist in the field of dynamic systems, mathematical modeling of complex socio-technical systems, analysis of flows on complex networks, intelligent systems in transport.

IEEE member, member of the Expert Council on Mathematics and Mechanics of the All-Russian Attestation Commission of the Russian Federation. Member of the program committees on international conferences: TGF (Traffic and Granular Flow), ICCMA (Control, mechatronics and automation), ICCMIT (Communication, management and IT), etc., author of over 150 publications.
